Instructions

^ COLLAPSE ^

- 1 .Visit w3schools and go to the HTML Tutorial: <https://my-learning.w3schools.com/tutorial/html>
 - 1 .Introduction and Basics Lessons 1.1 - 1.7
 - 2 .Formatting and Style Lessons 2.1-2.6, 2.8 - 2.22
 - 3 .Links Lessons 4.1 - 4.3
 - 4 .Forms Lessons 10.1 - 10.6
- 2 .Visit w3schools and go to the JavaScript Tutorial: <https://my-learning.w3schools.com/tutorial/js>
 - 1 .Introduction Lessons 1.1 - 1.7
 - 2 .Variables Lessons 2.1 - 2.4
 - 3 .HTML DOM Lessons 22.1 - 22.14
- 3 .Visit w3schools and go to the CSS Tutorial: <https://my-learning.w3schools.com/tutorial/css>
 - 1 .Introduction Lessons 1.1 - 1.6
 - 2 .Links Lesson 11.1
 - 3 .Lists Lesson 12.1
 - 4 .Selectors 16.1 - 16.5

Guide:

- 1 .Make sure you're in the main branch locally and `git pull origin main` any pending changes
- 2 .Make a new branch per the recommended branch name below (git checkout -b ...)
- 3 .Fill in the items in the worksheet below (save as often as necessary)
- 4 .Once finished, export the worksheet
- 5 .Add the output file to any location of your choice in your repository folder
- 6 .Check that git sees it via `git status`
- 7 .If everything is good, continue to submit
 - 1 .Track the file(s) via `git add`
 - 2 .Commit the changes via `git commit` (don't forget the commit message)
 - 3 .Push the changes to GitHub via `git push` (don't forget to refer to the proper branch)
 - 4 .Create a pull request from the homework related branch to main (i.e., main <- "homework branch")
 - 5 .Open and complete the merge of the pull request (it should turn purple)
 - 6 .Locally checkout main and pull the latest changes (to prepare for future work)
- 8 .Take the same output file and upload it to Canvas
 - 1 .*This step is new since GitHub renders the PDF as an image the links aren't clickable so this method works better
 - 2 .*Remember, the github process of these files are encouragement for your tracking of your progress

lesson 16.1 - 16.5

Reflection (2.5 pts.)

^ COLLAPSE ^

Task #1 - Points: 1

Text: Reflect on the topics and refer to the checklist of this task

Checklist

*The checkboxes are for your own tracking

#	Points	Details
<input type="checkbox"/> #1	1	Mention specifics of what concepts/topics were totally new to you.
<input type="checkbox"/> #2	1	Mention specifics of what concepts/topics you already knew.
<input type="checkbox"/> #3	1	Mention specifics of any topics you still don't feel confident about. If everything makes sense so far you can mention so.
<input type="checkbox"/> #4	1	At least a few reasonable sentences.

Response:

Some topics that were new to me were lessons 16.1 - 16.5 in the CSS readings, lessons 10.1 - 10.6 in the HTML readings, lessons 22.1 - 22.14 in the JS readings. I had a basic understanding of HTML, CSS, and JS so I already knew how to declare variables, create HTML tags, create links, etc. Out of the three languages, I'm having a little bit of trouble with Javascript since it's a little more complex compared to the other two. However, I'll continue to go over the topics that I had trouble with in order to get a better understanding of them.
